

The subcandies – Out Of the Blue Vinyl LP

(Release Date: 21st February 2008)

Austria`s subcandies have showed up on the scene to take you away on a mind blowing trip with their fresh, astonishing mix of Freakbeat, Garage, Rhythm`n`Soul and Psychedelia.

Besides their 3-minute smashers, The Subcandies stand out with catchy beat tracks featuring plenty of hooks drenched in thrilling organ sounds. The band already raised attention with both of their self-released singles, each one limited to 300 copies which were sold out immediately.

The reviews were great: e.g. „ Best single we´ve heard this year“ – („Dizzy“ Holmes / Detour records 2007).

The album contains 5 new songs, that are supplemented by the 4 songs from their rare singles. Additionally it implies the song „Dirty Names“ for the first time on vinyl. The first 100 Lp´s will be pressed on colored vinyl, which you can only get throughout our mailorder or directly via the band.
